We have prepared a feedback format in the form of questionnaire relating to the curriculum. Four point scale is given to assess the feedback analysis. This format is common for all students, alumni and parents. Feedback has been collected from all the stakeholders. The analysis is as follows:

Feed-back analysis on curriculum based on the data obtained from Students:

Feed-back analysis on curriculum based on the data obtained from Alumni:

Feed-back analysis on curriculum based on the data obtained from Parent:

Feedback analysis on curriculum obtained from Business firms/Industries:

Annexure - III

Best Practice - I

Title of the Practice	**Financial Support to the Economically Weaker Students from Staff Members Fund.**
The Context	The students from rural background and economically weaker sections of the society need the financial support. To uplift their education status for further progress and to avoid the discontinuation of their studies such a kind of support is the need of the hour. In accordance with that every year nearly about 15 students are given the amount of Rs. 1000/- each.
The Objectives of the Practice	Poor students are enabled economically to pursue higher education. To assist the meritorious students to continue their journey of success. To motivate the students from rural background to continue their studies despite of their poverty. To enable the poorest of the poor students to stand on their own. To uplift the socio-economic condition of the students to certain level.
The Practice	The meeting of the staff members is held to discuss offering financial support to poor and economically disadvantaged students. All the staff members voluntarily and unanimously agreed to initiate the practice and contributed quite a handsome amount. The amount of Rs. 4,60,000/- was deposited in the State Bank of India Branch Chikodi. About 20 students are benefited in the year 2016-17. The committee of Principal and senior staff members identify the poor and meritorious students. Each student gets Rs. 1000/- on the annual day celebration at our college. The amount of Rs. 1000/- to each is given out of the interest earned from Teachers Fund Deposit. This practice has been continued since April 2011. Since then 20 students every year have been benefited.
Obstacles faced / problems encountered	There were no obstacles to initiate the practice.
Impact of Practice / Evidence of success	Many poor and economically deprived meritorious

	students were supported by the practice. This practice boosts the students to come out of the closed cocoons due to poverty. Since 2011 around 111 beneficiaries have been pursuing further education. The will power is generated among the students to succeed in the examinations with flying colours.
Resources Required	The fixed Deposit of Rs. 4,60,000/- is operated by the Principal and the Staff Secretary.

Best Practices – II

Title of the Practice	**E-Waste Management**
The Context	Techno era has promoted massive use of electronic gadgets and is common even in rural places creating a new environmental problem. E-waste is a result of short-life electronic gadgets like handsets, computer systems, etc. Creating awareness about E-waste and initiating waste management practice is responsibility of all the HEIs.
The Objectives of the Practice	To contribute towards creating awareness and giving a paradigm for the practice. To give ideas about recycling of valuable E-waste and to manage dangerous E-waste scientifically without causing damage to the environment. To promote awareness about hazardous and toxic nature of E-waste and to dispose off the same judiciously.
Obstacles faced / problems encountered	Absolutely no obstacles were encountered in practising this. But convincing the rural people was tough, yet pursued.
Impact of Practice / Evidence of success	Huge collection of E-waste is collected and it is sent to Dr. Bulbuli of Bengaluru for recycling. This is a sign of success.
Resources Required	Expenses towards transportation have been borne by the Institution.
