DIST : BELAGAVI.

REGD No. : DRGB/SOR/326/2020-2021 DATED :26-08-2020.

AUDIT REPORT : 31-03-2021.

We have audited the Accounts of **Kle Society's Basavprabhu Kore Arts, Science And Commerce Mahavidyalaya Haleya Vidyarthigala Sangh, Chikodi Tal: Chikodi, Dist: Belagavi** for the year ended 31-03-2021 and the following are our observations thereon:

The Financial Statements are the responsibility of the Management. Our responsibility is to express an opinion on these Financial Statements based on our audit.

We have conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosure in financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Management, as well as evaluating the overall financial statement presentation.

During the year under audit, the Accounts and Records of the Sangh maintained by the Staff are fairly well, but require some improvements. Other mistakes which are minor have been rectified by the staff at the time of our audit.

During the year, the Sangh has collected a Bank Interest of ₹. 16470/-. After charging the establishment expenses of ₹. 21500/-, the Income & Expenditure Account of the Sangh shows a Deficit of ₹.5030 /-.

We thank the Management & Staff of the Sangh for their co-operation at the time of our audit.

From the Principal Desk

The ongoing COVID-19 pandemic due to the SARS-CoV-2 virus has already infected more than 15 million people and accounted for death of more than half-a-million worldwide, with no sign of abating in near future. Given the scale of its spread, it is obvious that everyone has to contribute to contain the damage caused by the pandemic. The doctors and medical researchers have a very critical role to play by conducting innovative research and harnessing their ideas into successful products in a very short period so that the virus attack in a person can be identified at a nascent stage and contained without infecting general public, healthcare workers, the security personals, media people, and many others engaged in transport, manufacturing and entertainment industries. It is a difficult task to develop new technologies within a short span but many of the existing technologies can be deployed with subtle changes to meet the immediate needs challenged by COVID-19. Realizing the concern caused by COVID-19, Under Graduate (UG) Department of Botany, Post Graduate (PG) Department of Botany and Department of Mass Communication & Journalism has decided to bring a National Level Essay Competition for all the young minds. We feel fortunate that we have been entrusted to bring this competition in a record time of 2 weeks.

We were overwhelmed by the response received from various organizations, institutes and university across the country. Our reviewers have done rigorous assessment of submitted scripts and many of the scripts have undergone rejection due to their improper arrangement and they didn't follow the submission rules. We are received 61 entries of participants, but among them we are presenting 40 scripts in this booklet. The first three prizes have been arranged in the beginning of the booklet.

We extend our deep appreciation to all the contributors for their invaluable contributions in a short notice. We would like to take this opportunity to thank all contributors for their timely contribution despite their preoccupation. Not only they came forward spontaneously to our call, but they also have contributed their important views, showing the direction to cope up with the challenges and recovery. Collaborated through digital interfaces, this publication has been produced at zero cost while staying at home during the lockdown period.
