of smart 'Women' it is not only the world to spell but women is a world women it self is a world word which says "I am able", "I am Capable", "I am Strong" "I am Confident" "I am the most beautiful"

"IMPORTANCE OF ECONOMICAL INDEPENDENCE FOR WOMEN"

Women is a powerful creature created by god on this earth. Total population of this world is around 7.8 billion, where the population of women is 3.905 billion which is 49.5% of the world full of male domination. through the above statistics we got an idea about how women shares the population but yet she is dominated by male.

"Women are not equal to men", "women are physically weak" "women are lack physically and mentally behind" we listen to such sentences everyday commonly and yes! it is absolutely true, as we all know that women are segregated due to gender differences. women got the boon to give a birth to child so she got different reproductive part rather than the reproductive part. All the capabilities of male and female are equally gifted by god but yet the women lag behind.

Women are always seen as mothers, wife, sister and daughter since early earlier times and were only limited to household works, looking after children, husband and family. But this traditional mindset never allowed women to grow.

Women gets many circumstances in their lives, They not only face problems in the work places but also they get more and more circumstances in their home itself. They can't even fulfil their basic needs without demanding money from her husband. Women get totally dependent on husband financially.

M.K. Gandhi has said there should be equal rights of voting for male and female as well ~~to~~ but we can't even see 33% of leadership of the women in the country. This static says women are been suppressed in every aspect.

"Economic Independence is not only a social justice but a social transformation."
Now a days in this modern generation women are ~~so~~ well educated. In the town levels they do better understand the importance of literacy & financial status but rural area people ~~do~~ aren't aware about the education and development of girls.

National Policy of Action for girls - 1992 provided the Education, healthcare, medical, transportation facilities for female. They provided a very good education for girls. Kerala has highest literacy rate among all the states of our country, and economic growth too, is good in Kerala by women.

Economic Independence is important for following purposes:

- > To gain equal rights and duties
- > To gain the leadership for ~~these~~ decision making
- > To gain the independence for family welfare and future planning
- > National development.

To gain equal rights: It means the work of men and women are equally distributed but the traditional salary were given much higher than women. Women are capable of doing all the works ~~also~~ allotted.

To gain leadership for decision making: If the women is financially independent she gets the confidence to take her own self ~~des~~ decisions.

To come out with flying colours of freedom women must and should be financially independent. Gaining Economic independence doesn't mean domination it is a mode of dignified life, survival, confidence and strength. Women can definitely lead a respectful & satisfied life if she is economically independent. So "Beti Bachao - Beti Padhao" Women is the only power to who can come out from all the struggles on her own self. If women grows then directly or indirectly our country grows. and growth of country is responsibility of each and every citizen of India.
